

## ICE's Breakwaters 2009 Conference Programme Available

The programme for the Coasts, Marine Structures and Breakwaters 2009 Conference is now available. The conference, organised by the Institution of Civil Engineers and supported by Japan Society of Civil Engineers, will take place on 16 – 18 September 2009 in Edinburgh, Scotland, UK.

Over 110 high-profile and peer-reviewed presentations will cover the most up-to-date case studies and research in the design, performance, installation and maintenance of breakwaters, seawalls, jetties, piers and beach control structures. For the first time the latest material on the design and installation of the structures necessary to extract marine and wind energy around nearshore seas and coasts will also be covered.

**Japan Society of Civil Engineers members** will benefit from **discounted fees**. For more information, to download the programme and to register your place, visit the website: [www.ice-breakwaters.com](http://www.ice-breakwaters.com)
